

Work Completed for FSCJ

As an independent contractor, I have provided instructional design and consultation services for FSCJ. Most work has been completed for Open Campus. In addition, I have completed numerous course reviews and textbook updates, and contributed to the development of instructional design practices and procedures on a consulting basis.

Because the courses are housed on a password protected learning management system, I am not able to provide direct access. Following is a list of courses I have managed as an instructional designer. The ability to view a course may be available to FSCJ employees by request to Open Campus.

New Courses

DSC2570 Cyber Terrorism (Learning Technologies Department)

MAN4162 Customer Relations for Managers

MAN3781 Sustainable Business Strategies

HSA3113 Health Care Trends and Issues
